Resolution - RDC nº 71, April 3rd, 2003

D.O.U., 04/04/2003

It changes the College Board of Directors' resolution - RDC nº 2, January 8th, that rules the Technical Regulation on sanitary inspection and control in airports and airplanes.

The Deputy Chairman of the Brazilian Sanitary Surveillance Agency, using the powers offered by administrative rule nº 708, December 26th, 2003, considering the statements of article 13, clause IV of ANVISA's regulation approved by Decree nº 3.029, April 16th, 1999, and article 111, clause I, line "b", § 1º of Internal Regulation approved by administrative rule nº 593, August 25th, 2000,

Considering the subject's urgency,

Approves, ad referendum, the following College Board of Directors' resolution and determines its publication:

Art. 1º Change lines "b" and "c" of article 28, caput of article 41, clause VIII of article 76, item A – LIST OF MEDICINES and item B – LIST OF HEALTH PRODUCTS of annex 1 from RDC nº 2, January 8th, 2003, published in the Official Daily Government Newspaper of January 13th, 2003, that are in force with the following text

Art. 28

b) To submit the vehicle to cleaning and disinfecting procedures according to PLD, Annex III, Table VIII;

c) To have an adequate place in the vehicle to keep the EPI and cleaning and disinfecting products.

Art. 41 It will be responsibility of the national airline that is responsible for the operation of public transport of passengers, from 30 (thirty) seats, to keep inside the aircraft an Emergency Medical Kit, according to the List of Medicines and List of Health Products, Annex I.

Art. 76

VIII – To keep on board the passengers' aircraft, from 30 (thirty) seats, a medicine and health products kit to be used in cases of emergency on board, according to Annex I.
